PROFESSIONAL SUMMARY

BS Information Technology graduate, Major in Software Engineering, with professional programming experience, freelance software/web development, hands-on IT support, and small-business technical operations. Builds and supports practical applications and workflow automations using JavaScript, React/React Native, n8n, OpenAI, Firebase/Firestore, MySQL, Git, and webhooks, with additional experience in Windows support, hardware/software troubleshooting, basic networking, and technical documentation.

PROFESSIONAL EXPERIENCE

Quadrant Information Services, Inc.

2020 - 2023

Rate Programmer

- Developed and maintained system components based on project requirements, working with databases and application logic to support project delivery.
- Applied structured problem-solving and documented technical work during development and maintenance tasks.

Freelance Technical & Development Work

2023 - Present

Independent Developer / Technical Support

- Built and supported small software and web projects for students and local clients, handling implementation, debugging, troubleshooting, and revisions.
- Diagnosed Windows, software, driver, and hardware issues for clients, performing setup and maintenance to restore systems to usable condition.

STKR Maniac Printing Services

2023 - Present

Business Owner / Technical Operations

- Managed client print orders and prepared production-ready files from design through final output.
- Maintained and troubleshot printers, computers, and related production equipment during daily operations.

CORE TECHNICAL SKILLS

Development: JavaScript, C#, Java, PHP, HTML5, CSS3, React.js, React Native, Android Development

Data & Tools: MySQL, Microsoft SQL Server, Firebase, Firestore, Git, GitHub, VS Code

IT Support: Windows installation/maintenance, hardware diagnostics, software/drivers, printers, RJ45/Ethernet, basic LAN, connectivity troubleshooting

Automation & Integrations: n8n, Webhooks, REST/API concepts, OpenAI, Google Sheets, Gmail, JSON, workflow automation

Professional Development: n8n Academy Foundations track - 4 Certificates of Completion (Sep 2026)

SELECTED PROJECTS

AI Client Inquiry & Lead Qualification Automation | n8n | OpenAI | JavaScript | Webhooks

- Built and production-tested an end-to-end workflow that validates and deduplicates inquiries, extracts structured project details with GPT-5 Mini, applies deterministic lead scoring, logs to Google Sheets, sends personalized Gmail replies, routes Hot/Warm/Cold follow-ups, and triggers failure alerts.

Kopi Brews Operations App | React Native | Firebase | Firestore

- Built a private multi-user Android prototype with Admin, Cashier, and Customer workflows for orders, inventory, sales insights, loyalty, rewards, promotions, and customer history.

AVENLO Web Product Line | HTML | CSS | JavaScript | Git

- Built and deployed three responsive static web products with live demos, documentation, reusable structure, and version-controlled releases.

Eleventh28 POS + Kitchen Display | C# WinForms | MySQL | Crystal Reports

- Contributed to a team capstone covering role-based access, POS/payment, kitchen workflow, inventory, reports, logs, and database utilities.

EDUCATION

BS Information Technology, Major in Software Engineering - STI College Global City, 2015 - 2019
